

**Request for Bids
EV CHARGING STATION INSTALLATIONS**

**The Board of Trustees of the Galveston Wharves
(Port Of Galveston)
Galveston, TX**

Bid No. 2023-013

Supplement No. 1

1. I was wondering if there was Drawings for the Charging stations. I do already have the technical specs and location photos.
 - a. Please see Cruise Terminal 28 and SMP Garage Electrical drawings attached herein.
2. In the job specs for the express lot, it calls for a 50 kva transformer to be installed to feed a new panel to serve the chargers. Is this a 3-phase transformer and panel or single phase?
 - a. The transformer is three phase.
3. In reading through the notes, it looks as though the chargers have already been procured and the port is looking for a contractor to install the equipment. Can you confirm this or is the port also open to procuring chargers and the installation?
 - a. The chargers have already been procured and received. This bid is only for their installation.
